DIEP PHAN

My name is Diep Phan, I come from Binh Dinh province- the dear central land. My co-workers usually call me Deep.

I have worked at MiTek for more than 2 years in the commercial department. MiTek is not the first company I worked for. However, I have found a very wonderful and dynamic environment here.

The first time I came to Mitek Vietnam, I was really surprised by the image and the scale here. Initially everything seemed strange to me, but I had a feeling of familiarity because of the friendliness of people working here. People are always willing to help each other even though they don't know where you come from.

MITEK PEOPLE

My current role here is a Senior staff. I play a supportive role and help my team whenever they need it at work.

At MiTek, you can absolutely find something very interesting that few companies have. It is the harmony between work and extracurricular activities that takes place regularly. Similar to what we experienced in middle school or high school. I think this is a very cool thing. It gives people the opportunity to interact, have fun, reduce work pressure and regenerate energy to work in a very effective way. Through such activities, I learn how to be a teammate and how to support others. All companies have positives and negatives. I believe that if you know how to choose what is right for you and live your best with it, you will feel happy. MiTek is the right place for me.

I am very happy to be here for more than 2 years. I hope MiTek Vietnam will grow more and more in the coming years.

Thanks for reading!

MiTek is waiting to welcome the next generation of "MiTekers" in the not-too-distant future.

#Octoberhabit- Practice Mindful Living

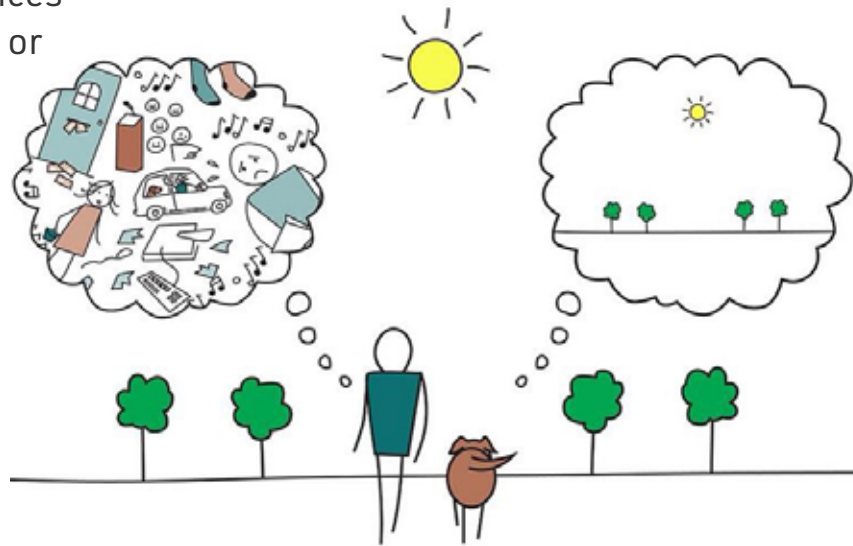

Mindful living is all about being present in the world. The mindful living meaning involves taking care of your actions, words, and feelings to ensure that you live a good and present life. It's about not letting life pass you by while living in reactions and in your head. It's about stepping outside into the world to be a good human who practices virtue and who lives in accordance to his or her nature.

16 Ways to Practice Mindful Living:
