## EARTH HOUR 2023 THE TRANSFORMATION TEAM

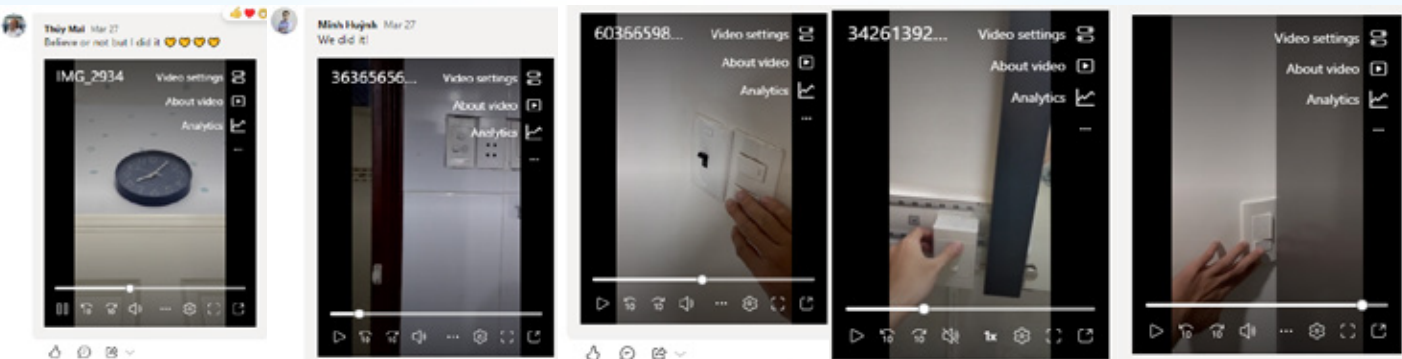

On Saturday, March 25<sup>th</sup>, with people worldwide, we turned off lights for one hour to celebrate Earth Hour 2023. This was such a meaningful moment.

Apart from that, MiTek-ers were enthusiastic about participating in activities such as riding bicycles to the company instead of motorcycles, turning off the screen when not needed, turning off the power when not in use, sharing motorcycles to save fuel, and so on.

Although the amount of electricity saved in 1 hour in response to the campaign is not much, the meaning of Earth Hour continues beyond this number. Everyone is encouraged to practice regularly throughout 365 days of a year to make saving electricity and power a habit. It's also a change in awareness and the actions of the commute : saving electricity and protecting the environment.

# LOUD 'N PROUD

Thank you for joining us for Loud 'n Proud 2 - Scavenger Hunt. We hope you had a bunch of fun and a great experience with your team.

Congratulations to the winner this season - CC team! You did a great job. Thanks again for your time! We'd love you see you at our next events!!!

I currently work for the Home Builders Supplier segment. I remember the first time I came to MiTek and I saw the 7 core company values on the walls in reception. At the time, I wondered, how can I apply these values to the job that I am about to take on as a normal staff?

# PEOPLE

My name is  
**QUYEN**

with the global ID  
is **714350**

I gradually mastered my HVAC design work, met many new colleagues, and experienced many new things from my team. Through the company's activities, I can continue to learn from colleagues in different segments. I decided to develop myself by working hard to get promoted to have more

opportunities for exposure to managers and learn more from them. After 3 years of hard work I have initially succeeded in learning by putting myself in other people's shoes, also know as "Be Others".

This is such a good skill. As a result I have built better relationships with customers, I am more confident about our service, about what I do in meetings, sending emails as well as making customer care calls. Not only that, I also support my managers in the operations of the department and keep a positive spirit for the team members about work and life balance.
